--RELATED APPLICATIONS

This is a divisional of U.S. Patent Application Serial No. 09/153,432, filed
 September 14, 1998, which is now U.S. Patent No.--

Appendix

In the priority application, the appendix was objected to because 37 CFR
 1.96 only permits computer program listings, and because the appendix exceeded
 the 10 page limit under MPEP 608.05. To avoid this objection in the subject
 application, the specification is amended to place in the body of the specification

1 any material that was formerly included in the appendix. No new matter is added,
2 since this subject matter was submitted as part of the original application. A
3 substitute specification is enclosed. Applicant respectfully requests that the
4 specification be substituted for the original specification and that the above
5 amendment for "Related Applications" be made after the substitution.
